Notes

Scotgold Resources Ltd (AIM:SGZ), is Scotland's first commercial gold producer. The Company poured first gold in November 2020 at its Cononish Gold and Silver Mine ('Cononish) in Tyndrum, Scotland and is developing it into a +23,500-ounce gold mine per annum by end of Q1 2023. Cononish is a high-grade underground mining operation with a central processing plant producing gold concentrate for off-take and gold doré for the Scottish Jewellery industry. Once in full production, the mine has anticipated forecast operating costs of c.£544/oz AISC, which will place Cononish in the lowest quartile of gold mining operations globally.

It is Scotgold's vision to build a mid-tier gold mining company in Scotland with multiple operations in the country that enhance the local environment and economy in ways that have an enduring positive impact.
